

Following on from our recent news about the scheduled external repair and redecoration works on our local pub, the Radyr Court, we can report that the work has started and that Andrew Bluett, Regional Property Manager of Enterprise Inns has given us the following statement

*"Enterprise Inns is happy to say that we will shortly complete external repairs and redecoration to the Radyr Court as part of a continuing investment program in our estate. We are aware that the exterior of this house has deteriorated in the past few years and are pleased to change that situation. Both we and our current tenants look forward to welcoming customers old and new to the Radyr Court."*
