

We believe that building 10,000 homes along the Llantrisant Road - 7,500 between St Fagans and Radyr, 2,500 north of the M4 and South of Creigiau - will create misery from sunrise to sunset and particularly in the morning rush hour on the Llantrisant Road through Llandaff . The Council has no transport infrastructure plan to deal with this problem other than a vague suggestion of bus corridors.

Danescourt Community Association has been advised that the Council is more likely to take note of a large number of personal objections to its Preferred LDP Strategy than it would to a large number of names attached to a petition.

The Association has therefore prepared a standard response, as a Word document, which systematically objects to the Council's plans.

Each resident is urged to [download the Association's prepared standard response](#) , add their contact details to the first page, save the document and then email it as an attachment to a short note to LDP@cardiff.gov.uk

Alternatively, any resident who either disagrees with any part of the Association's standard response or wishes to augment some part of it can easily do so as it is a 'Word' document.

To do this, download and save the document, amend it where desired, add your contact details to the first page, save the document and email it as an attachment to a short note to LDP@cardiff.gov.uk

Either way, it is essential to send the email to the Council no later than 14th December 2012 as any comments received after that date will not be considered. It is hoped that by this process each resident with access to a computer will have a simple means of making their views known to the Council.

You are urged to do this for your community.
